**The committee has drawn up a list of questions you might want to ask a potential breeder you are considering purchasing a doe from.**

1. Do you have any known CAE positive animals in your herd?
2. Do you test for CAE and when was your last test?
3. Do you raise your kids using CAE prevention?
4. Have you had does in the project or does you sold test positive and if so what is your policy?
5. Do you come to the sale and support the sale?

Remember, your sale doe **must test CAE negative prior to the sale** in order to sell in the sale. A doeling under 6 mo of age has a higher risk of a false positive test. Only does born before January 21 will be 6 mo of age prior to the closing of entries to the Humboldt County Fair.
